

Class 2 Nightbrace

What a Class 2 Nightbrace does:

1. A Class 2 Nightbrace corrects an overbite through the modification of growth.
2. It allows growth of the lower jaw to “catch up” to the growth of the upper jaw.

Important Considerations:

1. Wear your Class 2 Nightbrace in the evenings and while sleeping (12 hrs/night)
2. It does not need to be worn if a friend sleeps over or when sleeping at a friend’s home
3. A Class 2 Nightbrace can be worn while doing homework, watching TV, playing video games, etc.
4. Always bring it with you to each visit in case an adjustment is needed

Advantages of a Class 2 Nightbrace:

1. Completely removable - puts the patient in control
2. Modifies facial growth in a favorable way
3. Easy to use
